2. The Swandown Site

All the lodges are privately owned and approximately half are let out through Hoseasons. The remainder are used privately by the owners, please respect the lodges you are staying in and your neighbours.

There is a site plan on the pin board in reception. There is a map of the Cricket St Thomas Estate walks and roads in reception, please help yourself and take one. The site plan and map can also be found on our website – www.swandown.net

The two main issues that affect your neighbours are noise and unsightly items around the site. Please be mindful of noise, especially when using the hot tubs particularly in the evenings. Your deposit may be taken if you cause a disturbance.

3. Entrance Gate - 1471

The electric gates restrict the traffic entering Swandown so we ask you not to give out the code. The gates will open automatically for traffic leaving Swandown. There is a 10mph speed limit on site. There is recorded CCTV to act as a deterrent to unauthorised traffic and for security in Reception.

If you have any grocery or other deliveries please meet them at the entrance gates, rather than revealing the code. This is to ensure continued security.

4. Checking Out

Check out time is no later than 9 am. It is important that the cleaners can access the Lodge at this time in order to prepare for the arrival of the next guests. Please leave your key in your lodge on the day of departure. If you are planning on leaving early, there is a letter box in Reception for you to post the key through.

We have furnished and equipped the Lodges to a high standard. Please leave the house as you found it - clean, tidy and with all the bins and recycling bags emptied. Crockery, glasses and cooking utensils should be clean

Important Information

and if you have moved any items to another Lodge these must be returned before your departure. A charge will be made for the housekeeper's time for rectifying the above. We will not charge for minor mishaps however we would be grateful if you could notify us of any breakages.

In the past a number of items including bath robes and towels have gone missing and as a consequence we now take a deposit from all guests. Please ensure that no Lodge items are taken home with you e.g. torch or hairdryer. We will make a charge for anything missing.

5. Bins and Recycling

The bins are situated next to the entrance gates, to the left of the linen store, around the back. We encourage recycling as much as possible but recyclables need to be separated.

In the kitchen there is a general waste bin, a brown food waste bin with compostable bag and coloured recycling bags for glass, paper and plastic. There is a separate bin in the recycling area for glass but cans, paper, cardboard and plastic all go in one bin. On departure please take all your rubbish and recycling to the bins.

6. Heating

The lodge is heated by underfloor heating downstairs and the current room temperature is displayed on the room thermostat. Upstairs the bedrooms are heated by radiators set to come on between 6am-10am and 6pm-10pm. The underfloor heating thermostat is usually set at 20°C and if the room drops below the set temperature the heating will come on - when the heating is on, a  symbol is displayed. There are four room thermostats - in the downstairs bedroom, the hall, the bottom of the stairs and by the breakfast bar. To change the temperature - scroll the dial (do not press) and the new temperature will flash on the display and then return to display the current room temperature.

If a sun or moon symbol appears on the display, the thermostat is on the incorrect setting. Please press and hold the dial until M1 appears and then let go. This will return the thermostat to the scroll setting required.

The bedroom radiators and towel rails upstairs are controlled by a separate timer and will come on between 6am-10am and 6pm-10pm.

7. Log burner and Logs

We provide a basket of logs, kindling, firelighters and matches as part of your welcome pack. The log burner should not be needed to warm the room as the underfloor heating will keep the Lodge at a comfortable temperature. **WARNING:** When in use the log burner is hot!

A local woodman delivers bags of logs, available in reception, where there is an honesty box for payment. It is important to burn dry logs - please do not pick up wet logs from the woods. Logs can also be bought at many local shops e.g. in Chard - Tesco Garage (open 24hrs), B&Q and Central Motors.
